

# Summer KiwiSaver Scheme

## Summer Conservative Selection

Fund Update as at 31 December 2023

This fund update was first made publicly available on 13 February 2024.

### What is the purpose of this update?

This document tells you how Summer Conservative Selection has performed and what fees were charged. The document will help you to compare the fund with other funds. Forsyth Barr Investment Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

We aim to achieve positive long-term returns by choosing a greater exposure to cash and fixed interest investments and a lesser exposure to equity and property investments. Investors can expect moderate to high levels of movement up and down in value and to receive longer-term returns that are lower than those of the Summer Balanced Selection (but with less risk).

<b>Total value of the fund</b>	\$9,775,960
<b>Number of members in the fund</b>	266
<b>The date the fund started</b>	8 April 2019

### What are the risks of investing?

Risk indicator<sup>1</sup> for Summer Conservative Selection:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-profiler](http://www.sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 December 2023. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?<sup>2</sup>

	Past year
<b>Annual return</b> (after deductions for charges and tax)	6.92%
<b>Annual return</b> (after deductions for charges but before tax)	8.53%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	8.42%

The market index return is based on a composite index made up of the indices used to measure the performance of each asset class invested in, as displayed under the target investment mix. The index used to measure the performance of the New Zealand Fixed Interest asset class has changed since the last fund update due to a decision by the investment manager that the new index was more appropriate in terms of assessing movements in the market in relation to returns from assets in that sector. Additional information about the market index is available on the Summer KiwiSaver scheme's entry on the offer register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz)

### Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2023.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in Summer Conservative Selection are charged fund charges. In the year to 31 March 2023 these were:

	<b>% of net asset value</b>
<b>Total fund charges</b>	0.75%
Which are made up of:	
<b>Total management and administration charges, including</b>	0.75%
Manager's basic fee	0.66%
Other management and administration charges	0.09%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	<b>Dollar amount per investor</b>
Account fee <sup>3</sup>	\$36.00

Investors may also be charged individual action fees for specific actions or decisions (for example for withdrawing from or switching funds), although these are not currently charged. See the "Other Material Information" document at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

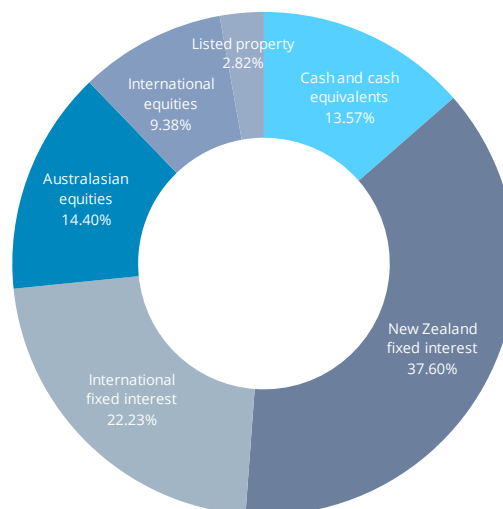

### Example of how this applies to an investor

Kim had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Kim received a return after fund charges were deducted but before tax of \$853 (that is 8.53% of her initial \$10,000). Kim also paid \$36 in other charges. This gives Kim a total return after tax of \$656 for the year.

## Notes

- <sup>1</sup> This fund came into existence on 8 April 2019. We've calculated the risk indicator using market index returns data for periods before that date, and actual fund returns data afterwards. Using market index returns data may make the risk indicator a less reliable indicator of how much fund values might go up and down in future.
- <sup>2</sup> Summer KiwiSaver scheme was previously known as the Forsyth Barr KiwiSaver Scheme - you can find a link to historical performance information for the funds in the Forsyth Barr KiwiSaver Scheme at <https://www.summer.co.nz/the-summer-scheme/performance-information/quarterly-fund-updates/>.
- <sup>3</sup> The account fee is charged at \$3 per member, per month.
