<b>Number of members in the fund</b>	503
<b>Date the fund started</b>	19 September 2016

### What are the risks of investing?

Risk Indicator for the Summer New Zealand Equities fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and down along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter). Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 September 2016<sup>1</sup>. While risk indicators are usually relative stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

	<b>Past year</b>
<b>Annual return</b> (after deductions for charges and tax)	Not applicable <sup>2</sup>
<b>Annual return</b> (after deductions for charges but before tax)	Not applicable <sup>2</sup>
<b>Market index annual return</b> (reflects no deduction for charges and tax)	31.60%

The market index return is based on the S&P NZX50 Gross index. Additional information about the market index is available on the Summer KiwiSaver scheme's entry on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

### What fees are members charged?

Members who invest in the Summer New Zealand Equities fund are charged fund charges. Our estimate of the fund charges is as follows:

	<b>% of net asset value</b>
<b>Total fund charges (estimated)<sup>3</sup></b>	0.90%
<b>Which are made up of:</b>	
Total management and administration charges (estimated), including <sup>4</sup>	0.90%
Manager's basic fee	0.90%
Other management and administration charges	0.00%
<b>Total Performance-based fees</b>	0.00%
<b>Other charges</b>	<b>Dollar amount per investor</b>
Account fee <sup>5</sup>	\$36.00

Investors are not charged any other fees. See the PDS more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor<sup>6</sup>

Jane had \$10,000 in the fund at the start of the year and didn't make any further contributions. At the end of the year, Jane received a return after fund charges were deducted of \$3,160 (that's 31.60% of her initial \$10,000). Jane also paid \$36 in other charges. This gives Jane a total return after tax of \$3,124 for the year.

## Notes

- <sup>1</sup> As the fund started on 19 September 2016, market index return has been used to calculate the risk indicator. Using market index data may make the risk indicator a less reliable indicator of how much the fund's value is likely to go up and down in the future.
- <sup>2</sup> The fund has not yet been in existence for a 12 month period.
- <sup>3</sup> Excluding GST. The fund has not yet been in existence for a 12 month period, and so these charges are our best estimates based on the charges that we expect will be charged to the fund. See the PDS and the 'Other Material information' document on the offer register for the scheme at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose) for more information.
- <sup>4</sup> The manager's basic fee covers management and administration charges paid to us out of the fund for performing our functions as manager. We pay the scheme's expenses (including fees charged by the Supervisor) out of these amounts. The manager's basic fee also covers management and administration charges paid out of any other managed investment scheme that the fund invests into (including a scheme where we are the manager). We will estimate these charges if we are not the manager of that other scheme and the charges are not based on fixed percentages of net asset value. In that case the fund charge as a whole will be estimated, but we will adjust the portion of the fund charge that is paid to us so that the estimated total annual fund charge is 0.9%. See the 'Other Material Information' document on the offer register for the scheme at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose) for more information.
- <sup>5</sup> The Account fee is charged at \$3 per member, per month.
- <sup>6</sup> As the fund has not been in existence for a full year, this calculation is based on the market index return for the period.
- <sup>7</sup> These personnel are employees of Forsyth Barr Limited, which carries out investment management and daily administration of the Summer KiwiSaver scheme (and is an authorised body under our licence as a manager of registered schemes).
