

# Summer KiwiSaver Scheme

## Summer Growth Selection

Fund Update as at 30 September 2022

This fund update was first made available on 12 December 2022. It is a replacement fund update for the update made publicly available on 27 October 2022. The changes are: (1) the risk indicator number is now recorded as 5 rather than 4, (2) the description of volatility now describes the movement up and down in value to be high rather than moderate to high and (3) the statements on foreign currency exposures have been corrected.

### What is the purpose of this update?

This document tells you how Summer Growth Selection has performed and what fees were charged. The document will help you to compare the fund with other funds. Forsyth Barr Investment Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

We aim to achieve positive long-term returns by choosing a lesser exposure to cash and fixed interest investments and a greater exposure to equity and property investments. Investors can expect high levels of movement up and down in value and to receive longer-term returns that are higher than those of Summer Balanced Selection.

<b>Total value of the fund</b>	\$60,173,314
<b>Number of members in the fund</b>	1520
<b>The date the fund started</b>	8 April 2019

### What are the risks of investing<sup>1</sup>?

Risk indicator<sup>2</sup> for Summer Growth Selection:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 September 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?<sup>3</sup>

	Past year
<b>Annual return</b> (after deductions for charges and tax)	-11.35%
<b>Annual return</b> (after deductions for charges but before tax)	-11.79%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	-9.45%

The market index return is based on a composite index made up of the indices used to measure the performance of each asset class invested in, as displayed under the target investment mix.

Additional information about the market index is available on the Summer KiwiSaver scheme's entry on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

### Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2022.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in Summer Growth Selection are charged fund charges. In the year to 31 March 2022 these were:

	<i>% of net asset value</i>
<b>Total fund charges</b>	0.90%
Which are made up of:	
<b>Total management and administration charges, including</b>	0.90%
Manager's basic fee	0.87%
Other management and administration charges	0.03%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	<i>Dollar amount per investor</i>
Account fee <sup>4</sup>	\$36.00

Investors are not currently charged any other fees. See the PDS for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Kim had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Kim incurred a loss after fund charges were deducted but before tax of \$1,179 (that is -11.79% of her initial \$10,000). Kim also paid \$36 in other charges. This gives Kim a total loss after tax of \$1,171 for the year.

## What does the fund invest in?

This shows the types of assets that the fund invests in.

### Actual investment mix

### Target investment mix

Cash and cash equivalents	4.00%

International fixed interest	6.00%
Australasian equities	38.00%
International equities	35.00%
Listed property	7.00%
Unlisted property	0.00%
Commodities	0.00%
Other	0.00%

## Top 10 investments

	<i>Name</i>	<i>Percentage of fund net assets</i>	<i>Type</i>	<i>Country</i>	<i>Credit rating (if applicable)</i>
1	Intermede Global Equity Fund	12.50%	International equities	Ireland	
2	ANZ transactional bank account	3.48%	Cash and cash equivalents	New Zealand	AA-
3	CSL Limited	1.76%	Australasian equities	Australia	
4	BHP Group Limited	1.68%	Australasian equities	Australia	
5	Fisher & Paykel Healthcare Corporation Limited	1.38%	Australasian equities	New Zealand	
6	Spark New Zealand Limited	1.36%	Australasian equities	New Zealand	
7	JP Morgan Chase & Co. USD Cash Deposit	1.17%	Cash and cash equivalents	United States	A-
8	Contact Energy Limited	1.09%	Australasian equities	New Zealand	
9	Goodman Property Trust	1.09%	Listed property	New Zealand	
10	Commonwealth Bank of Australia Limited	1.09%	Australasian equities	Australia	

The top 10 investments make up 26.60% of the fund.

Foreign currency exposures associated with international fixed interest are hedged to the New Zealand dollar. We actively manage the fund's foreign currency exposures. As at 30 September 2022, these exposures represented 54.28% of the value of the fund. After allowing for foreign currency hedges in place, 24.62% of the value of the fund was unhedged and exposed to foreign currency risk.

## Further information

You can also obtain this information, the PDS for the Summer KiwiSaver scheme, and some additional information from the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

## Notes

- <sup>1</sup> Summer Growth Selection has substantially the same investment strategy and objective the Octagon Growth Fund which we also manage. As at 30 September 2022 the Octagon Growth Fund had a higher risk indicator than the risk indicator calculated for Summer Growth Selection. When that happens we apply the higher risk indicator to both funds.
- <sup>2</sup> This fund came into existence on 8 April 2019. We've calculated the risk indicator using market index returns data for periods before that date, and actual fund returns data afterwards. Using market index returns data may make the risk indicator a less reliable indicator of how much fund values might go up and down in future.
- <sup>3</sup> Summer KiwiSaver scheme was previously known as the Forsyth Barr KiwiSaver Scheme - you can find a link to historical performance information for the funds in the Forsyth Barr KiwiSaver Scheme at <https://www.summer.co.nz/the-summer-scheme/performance-information/quarterly-fund-updates/>.
- <sup>4</sup> The account fee is charged at \$3 per member, per month.
- <sup>5</sup> Octagon Asset Management Limited is responsible for the day-to-day investment decisions for the fund.
