### What are the risks of investing?

Risk indicator<sup>1</sup> for Summer Global Equities:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 December 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

## Notes

- <sup>1</sup> This fund came into existence on 16 September 2016. We've calculated the risk indicator using market index returns data for periods before that date, and actual fund returns data afterwards. Using market index returns data may make the risk indicator a less reliable indicator of how much fund values might go up and down in future. We've also taken into account that this fund invests into the Forsyth Barr Global Equities Fund, and used the risk indicator figure for that fund if it is higher than the figure we calculated from the returns data.
- <sup>2</sup> Summer KiwiSaver was previously known as the Forsyth Barr KiwiSaver Scheme - you can find a link to historical performance information for the funds in the Forsyth Barr KiwiSaver Scheme at <https://www.summer.co.nz/the-summer-scheme/performance-information/quarterly-fund-updates/>.
- <sup>3</sup> Including GST if applicable. The fund's first complete financial year is the year ending on 31 March 2018 and so these charges are our best estimates based on the charges that we expect will be charged to the fund. See the PDS and the 'Other Material information' document on the offer register for the scheme at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose) for more information.
- <sup>4</sup> The 'manager's basic fee' covers management and administration charges paid to us out of the fund for performing our functions as manager. We pay the scheme's expenses (including fees charged by the Supervisor) out of these amounts. The 'other management and administration charges' covers management and administration charges paid out of any other managed investment scheme that the fund invests into (including a scheme where we are the manager). We will estimate these charges if we are not the manager of that other scheme and the charges are not based on fixed percentages of net asset value. In that case the fund charge as a whole will be estimated, but we will adjust the manager's basic fee so that the estimated total annual fund charge is 0.9%. Currently, we do not expect there to be any other management and administration charges that are not rebated in full to the fund. See the 'Other Material Information' document on the offer register for the scheme at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose) for more information.
- <sup>5</sup> The account fee is charged at \$3 per member, per month
- <sup>6</sup> These personnel are employees of Forsyth Barr Limited, which carries out investment management and daily administration of the Summer KiwiSaver scheme (and is an authorised body under our licence as a manager of registered schemes).
