

Summer KiwiSaver scheme Summer Australian Equities

Fund Update as at 31 December 2016

This fund update was first made publicly available on 10 February 2017

What is the purpose of this update?

This document tells you how Summer Australian Equities has performed and what fees were charged. The document will help you to compare the fund with other funds. Forsyth Barr Investment Management Limited prepared this statement in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests in selected Australian shares.

We aim to achieve positive long-term returns. These kinds of investments will typically have very high levels of movement up and down in value.

Total value of the fund	\$3,699,389
Number of members in the fund	491
The date the fund started	19 September 2016

What are the risks of investing?

Risk Indicator for Summer Australian Equities:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and down along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 December 2016¹. While risk indicators are usually relative stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

Example of how this applies to an investor⁶

Kim had \$10,000 in the fund at the start of the year and didn't make any further contributions. At the end of the year, Kim received a return after fund charges were deducted of \$924 (that's 9.24% of her initial \$10,000). Kim also paid \$36 in other charges. This gives Kim a total return after tax of \$888 for the year.

How has the fund performed?

	<i>Past year</i>
Annual return (after deductions for charges and tax)	Not applicable ²
Annual return (after deductions for charges but before tax)	Not applicable ²
Market index annual return (reflects no deduction for charges and tax)	9.24%

The market index return is based on the S&P/ASX Accumulation 200 Index (unhedged to New Zealand dollars). Additional information about the market index is available on the Summer KiwiSaver scheme's entry on the offer register at www.business.govt.nz/disclose.

What fees are investors charged?

Members who invest in Summer Australian Equities are charged fund charges. Our estimate of the fund charges is as follows:

	<i>% of net asset value</i>
Total fund charges (estimated)³	0.90%
Which are made up of:	
Total management and administration charges (estimated), including⁴	0.90%
Manager's basic fee	0.90%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
Other charges	<i>Dollar amount per investor</i>
Account fee ⁵	\$36.00

Investors are not currently charged any other fees. See the PDS for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Further information

You can also obtain this information, the PDS for the Summer KiwiSaver scheme, and some additional information from the offer register at www.business.govt.nz/disclose.

Notes

- ¹ This fund came into existence on 16 September 2016. We've calculated the risk indicator using market index return data for periods before that date, and actual fund return data afterwards. Using market index return data may make the risk indicator a less reliable indicator of how much fund values might go up and down in future. We've also taken into account that this fund invests into the Forsyth Barr Australian Equities Fund, and used the risk indicator figure for that fund if it is higher than the figure we calculated from the return data.
- ² The fund has not yet been in existence for a 12 month period. Summer KiwiSaver was previously known as the Forsyth Barr KiwiSaver Scheme - you can find a link to historical performance information for the funds in the Forsyth Barr KiwiSaver Scheme at <https://www.summer.co.nz/the-summer-scheme/performance-information/quarterly-fund-updates/>.
- ³ Excluding GST. The fund has not yet been in existence for a 12 month period, and so these charges are our best estimates based on the charges that we expect will be charged to the fund. See the PDS and the 'Other Material Information' document on the offer register for the scheme at www.business.govt.nz/disclose for more information.
- ⁴ The 'manager's basic fee' covers management and administration charges paid to us out of the fund for performing our functions as manager. We pay the scheme's expenses (including fees charged by the Supervisor) out of these amounts. The 'other management and administration charges' covers management and administration charges paid out of any other managed investment scheme that the fund invests into (including a scheme where we are the manager). We will estimate these charges if we are not the manager of that other scheme and the charges are not based on fixed percentages of net asset value. In that case the fund charge as a whole will be estimated, but we will adjust the manager's basic fee so that the estimated total annual fund charge is 0.9%. Currently, we do not expect there to be any other management and administration charges that are not rebated in full to the fund. See the 'Other Material Information' document on the offer register for the scheme at www.business.govt.nz/disclose for more information.
- ⁵ The account fee is charged at \$3 per member, per month.
- ⁶ As the fund has not been in existence for a full year, this calculation is based on the market index return for the period. The market index return does not account for fund charges and tax.
- ⁷ These personnel are employees of Forsyth Barr Limited, which carries out investment management and daily administration of the Summer KiwiSaver scheme (and is an authorised body under our licence as a manager of registered schemes).
